

ONIX

ONIX

At ONIX, we make innovation our essence and design our signature. We have established ourselves as the largest manufacturer of vitreous mosaic internationally, leading the industry with cutting-edge technology, optimised processes and a firm commitment to sustainability.

Our mission is clear: to offer high-design, eco-friendly solutions for commercial and residential projects that seek exclusive materials, responsible with the planet and aligned with the most demanding trends. Each collection reflects our determination to redefine interior design, presenting aesthetic proposals that transform spaces and generate impact.

With over two decades of experience, we continue to be driven by the same vision: to go as far as our imagination takes us.

En ONIX, convertimos la innovación en nuestra esencia y el diseño en nuestra firma. Nos hemos consolidado como el mayor fabricante de mosaico vítreo a nivel internacional, liderando la industria con tecnología de vanguardia, procesos optimizados y un firme compromiso con la sostenibilidad.

Nuestra misión es clara: ofrecer soluciones ecológicas de alto diseño para proyectos comerciales y residenciales que buscan materiales exclusivos, responsables con el planeta y alineados con las tendencias más exigentes. Cada colección refleja nuestra determinación por redefinir el interiorismo, presentando propuestas estéticas que transforman espacios y generan impacto.

Con más de dos décadas de experiencia, seguimos impulsados por la misma visión: llegar tan lejos como nos lleve la imaginación.

Chez ONIX, l’innovation est notre essence et le design notre signature. Nous nous sommes imposés comme le plus grand fabricant de mosaïque de verre au niveau international, en menant l’industrie avec une technologie de pointe, des processus optimisés et un engagement ferme en faveur de la durabilité.

Notre mission est claire : offrir des solutions de haut niveau, respectueuses de l’environnement, pour des projets commerciaux et résidentiels qui recherchent des matériaux exclusifs, responsables vis-à-vis de la planète et en phase avec les tendances les plus exigeantes. Chaque collection reflète notre détermination à redéfinir le design d’intérieur, en présentant des propositions esthétiques qui transforment les espaces et génèrent un impact.

Avec plus de vingt ans d’expérience, nous sommes toujours animés par la même vision : aller jusqu’au bout de notre imagination.

ONIX

ONIX ENVIRONMENTAL COMMITMENT

We are responsible for the legacy of future generations, which is why we maintain a firm commitment to offer a product that is environmentally friendly, healthy and energy efficient in order to reduce the excess of CO2 emissions on the planet.

Our glass mosaic tiles are made from 100% recycled glass, which, in addition to contributing to the circular economy, is an added value to the quality of our products. And, because we are committed to optimizing the use of each and every resource, we use recyclable packaging.

Meanwhile, we have incorporated a number of measures aimed at energy sustainability. For example, we do not use fossil fuels in our production process, and the energy used to drive our operations comes from renewable sources, specifically solar PV energy generated at our own facilities. As a result of this commitment, since 2024, we have ISO 50001 certification for Energy Management Systems.

ONIX Compromiso Medioambiental

Nos sentimos responsables del legado de las futuras generaciones, por ello mantenemos un firme compromiso en ofrecer un producto respetuoso con el medio ambiente.

Nuestras teselas de mosaico vítreo están fabricadas a partir de un 100% de vidrio reciclado, lo que además de promover la economía circular, proporciona un valor añadido a la calidad de nuestro producto. Este compromiso con la optimización de los recursos y su aprovechamiento también lo aplicamos a nuestro embalaje, siendo éste reciclable.

Paralelamente llevamos a cabo medidas orientadas hacia la sostenibilidad energética, entre ellas no emplear combustibles fósiles en el proceso productivo y funcionar con energía basada en fuentes renovables, en concreto con la energía solar fotovoltaica que generamos en nuestras propias instalaciones. Fruto de este compromiso, desde 2024, contamos con la certificación de la ISO 50001 de Sistemas de Gestión de la Energía.

ONIX Engagement Environnemental

Nous sommes responsables de l'héritage des générations futures, c'est pourquoi nous maintenons un engagement ferme pour offrir un produit respectueux de l'environnement, sain et économe en énergie afin de réduire l'excès d'émissions de CO2 sur la planète.

Les tesselles de nos mosaïques de verre sont composées à 100 % de verre recyclé, ce qui en plus de favoriser l'économie circulaire, apporte une valeur ajoutée et un plus de qualité à nos produits. Le fait que nos emballages soient recyclables confirme également notre engagement envers l'optimisation et l'utilisation des ressources.

Dans le même temps, nous avons mis en œuvre, un ensemble de mesures ayant pour objectif la durabilité énergétique, notamment en renonçant à l'utilisation de combustibles fossiles dans nos processus de production, au profit d'énergies issues de sources renouvelables, telle que l'énergie solaire photovoltaïque, que nous produisons sur notre propre site. Grâce à cet engagement, depuis 2024, nous aurons la certification ISO 50001 pour les systèmes de gestion de l'énergie.

VERSATILITY AND EFFICIENCY

We design and conceive glass mosaic as a fundamental element for indoor and outdoor decoration, not only because of its aesthetic possibilities, which allow for great customization, decoration and design, but also because of its functional properties.

Its high resistance to humid environments, non-porosity and resistance to thermal shocks, make our product the perfect choice for all types of rooms. In addition to its hygienic and antibacterial properties and its ease of cleaning, which explains the increasing use of this material in all types of projects.

Versatilidad y Eficiencia

Diseñamos y concebimos el mosaico vítreo como un elemento fundamental en la decoración de interiores y exteriores, no sólo por sus posibilidades estéticas, que nos aportan una gran capacidad de personalización, decoración y diseño; sino también por sus propiedades funcionales.

Su alta resistencia a ambientes húmedos, nula porosidad y resistencia a choques térmicos, convierten a nuestro producto en la opción perfecta para todo tipo de estancias. Además de destacar sus propiedades higiénicas y antibacterianas y su facilidad de limpieza, que justifican el crecimiento en la elección de este material en todo tipo de proyectos.

Versatilité et Efficacité

Nous dessinons et concevons la mosaïque de verre comme un élément fondamental de la décoration intérieure et extérieure, non seulement en raison de ses possibilités esthétiques, qui permettent une grande capacité de personnalisation, de décoration et de design, mais aussi en raison de ses propriétés fonctionnelles.

Sa grande résistance aux environnements humides, sa non-porosité et sa résistance aux chocs thermiques, font de notre produit le choix idéal pour tous les types de pièces. Sans compter ses propriétés hygiéniques et antibactériennes et sa facilité de nettoyage, ce qui explique l'utilisation croissante de ce matériau dans tous types de projets.

WATER COLOR CHART

Transforming Water Through Design

The Watercolor Chart is an essential tool for visualizing how water tones and reflections vary depending on the mosaic chosen for your pool. This resource allows you to assess how different colors and finishes interact with light and the environment, helping you make informed design decisions for your project.

Each shade of vitreous mosaic transforms the water's color, creating unique atmospheres, from crystalline and refreshing tones to deeper and more elegant effects. With the Watercolor Chart, you can anticipate the final result and ensure your pool reflects the exact aesthetic you desire.

Designed for architects, designers, and homeowners who value attention to detail, this color chart is an indispensable reference for creating unique and sophisticated pools.

Transformación del agua a través del diseño

El Watercolor Chart es una herramienta imprescindible para visualizar cómo varían los tonos y reflejos del agua según el mosaico seleccionado en su piscina. Este recurso permite evaluar cómo los diferentes colores y acabados interactúan con la luz y el entorno, ayudándole a tomar decisiones en el diseño de su proyecto.

Cada tonalidad del mosaico vitreo transforma el color del agua, creando ambientes únicos, desde tonos cristalinos y refrescantes hasta efectos más profundos y elegantes. Con el Watercolor Chart, podrá anticipar el resultado final y garantizar que su piscina refleje exactamente la estética deseada.

Concebido para arquitectos, diseñadores y propietarios que valoran la atención al detalle, esta carta de color es una referencia imprescindible para crear piscinas únicas y sofisticadas.

La transformation de l'eau par le design

La charte de l'aquarelle est un outil essentiel pour visualiser comment les tons et les reflets de l'eau varient en fonction de la mosaïque choisie pour votre piscine. Cette ressource vous permet d'évaluer comment les différentes couleurs et finitions interagissent avec la lumière et l'environnement, vous aidant ainsi à prendre des décisions dans la conception de votre projet.

Chaque nuance de mosaïque de verre transforme la couleur de l'eau, créant des atmosphères uniques, des tons cristallins et rafraichissants aux effets plus profonds et élégants. Grâce à la charte de l'aquarelle, vous pouvez anticiper le résultat final et vous assurer que votre piscine reflète exactement l'esthétique souhaitée.

Conçu pour les architectes, les designers et les propriétaires qui accordent de l'importance aux détails, ce nuancier est une référence indispensable pour créer des piscines uniques et sophistiquées

With ICON Limitless by ONIX, creativity knows no bounds. Designed to offer unparalleled flexibility, this modular range allows you to transform any space into an environment full of character. Its modules combine to create unique designs, ranging from sophisticated geometric patterns to fluid forms that exude elegance and modernity. ICON Limitless is perfect for both residential and commercial projects, delivering unmatched aesthetics for both indoor and outdoor spaces. Additionally, its easy installation ensures a professional finish in no time at all. With ICON Limitless, every detail matters

Con ICON Limitless de ONIX, la creatividad no tiene barreras. Diseñada para ofrecer una flexibilidad sin precedentes, esta gama modular permite transformar cualquier espacio en un entorno lleno de personalidad. Sus módulos se combinan para crear diseños exclusivos, que van desde sofisticados patrones geométricos hasta formas fluidas que reflejan elegancia y modernidad. ICON Limitless es perfecta para proyectos residenciales y comerciales, aportando una estética incomparable tanto en interiores como en exteriores. Además, su fácil instalación garantiza un acabado profesional en menos tiempo, dejando espacio para que tu imaginación sea el límite. Con ICON Limitless, cada detalle cuenta

Avec ICON Limitless d'ONIX, la créativité n'a pas de barrières. Conçue pour offrir une flexibilité sans précédent, cette gamme modulaire vous permet de transformer n'importe quel espace en un environnement plein de personnalité. Ses modules se combinent pour créer des designs uniques, allant de motifs géométriques sophistiqués à des formes fluides qui reflètent l'élégance et la modernité. ICON Limitless est parfait pour les projets résidentiels et commerciaux, offrant une esthétique inégalée à l'intérieur comme à l'extérieur. De plus, sa facilité d'installation garantit une finition professionnelle en moins de temps, laissant libre cours à votre imagination. Avec ICON Limitless, chaque détail compte.

The art of glass mosaic with details in gold is a unique expression that combines the delicacy of glass with the opulence of precious metal. This creative process merges meticulous craftsmanship with sublime elegance.

ONIX offers you the opportunity to create custom combinations by including 24K Gold tesserae into any Square or Penta format mosaic. The glow of gold adds a dimension of wealth and exclusivity to the mosaic, elevating it to an unparalleled level of luxury and sophistication, creating luminous glimmers and contrasts that bring the composition to life.

El arte del mosaico de vidrio con detalles en oro es una expresión única que combina la delicadeza del vidrio con la opulencia del metal precioso. Este proceso creativo fusiona la artesanía meticulosa con la elegancia sublime.

ONIX te ofrece la posibilidad de crear combinaciones personalizadas incluyendo teselas de Oro 24K en cualquier mosaico de formato Square o Penta. El resplandor del oro añade una dimensión de riqueza y exclusividad al mosaico elevándolo a un nivel de lujo y sofisticación incomparables, creando destellos luminosos y contrastes que dan vida a la composición.

L'art de la mosaïque en verre avec des détails en or est une expression unique qui marie la délicatesse du verre à l'opulence du métal précieux. Ce processus créatif fusionne un savoir-faire méticuleux avec une élégance sublime.

ONIX vous offre la possibilité de créer des combinaisons personnalisées en incluant des tesselles d'or 24 carats dans n'importe quelle mosaïque au format Square ou Penta. L'éclat de l'or ajoute une dimension de richesse et d'exclusivité à la mosaïque, la hissant à un niveau de luxe et de sophistication inégalé, créant des lueurs lumineuses et des contrastes qui donnent vie à la composition.

The art of glass mosaic with details in gold is a unique expression that combines the delicacy of glass with the opulence of precious metal. This creative process merges meticulous craftsmanship with sublime elegance.

ONIX offers you the opportunity to create custom combinations by including 24K Gold tesserae into any Square or Penta format mosaic. The glow of gold adds a dimension of wealth and exclusivity to the mosaic, elevating it to an unparalleled level of luxury and sophistication, creating luminous glimmers and contrasts that bring the composition to life.

El arte del mosaico de vidrio con detalles en oro es una expresión única que combina la delicadeza del vidrio con la opulencia del metal precioso. Este proceso creativo fusiona la artesanía meticulosa con la elegancia sublime.

ONIX te ofrece la posibilidad de crear combinaciones personalizadas incluyendo teselas de Oro 24K en cualquier mosaico de formato Square o Penta. El resplandor del oro añade una dimensión de riqueza y exclusividad al mosaico elevándolo a un nivel de lujo y sofisticación incomparables, creando destellos luminosos y contrastes que dan vida a la composición.

L'art de la mosaïque en verre avec des détails en or est une expression unique qui marie la délicatesse du verre à l'opulence du métal précieux. Ce processus créatif fusionne un savoir-faire méticuleux avec une élégance sublime.

ONIX vous offre la possibilité de créer des combinaisons personnalisées en incluant des tesselles d'or 24 carats dans n'importe quelle mosaïque au format Square ou Penta. L'éclat de l'or ajoute une dimension de richesse et d'exclusivité à la mosaïque, la hissant à un niveau de luxe et de sophistication inégalé, créant des lueurs lumineuses et des contrastes qui donnent vie à la composition.

Luminescent

ONIX's luminescent glass mosaic glows in the dark for hours after being charged with light, both natural or artificial (fluorescent, ultra-violet or halogen). This cycle may be repeated indefinitely.

The glow endurance depends on how long it has been exposed to light and also with the type of light it has been energized with. The luminescent will then gradually fade away after hours in the darkness.

This mosaic is weatherproof so it is suitable for any use: swimming pools, indoors & outdoors, walls, residential floors... It can be used as a plain color or mixed with the rest of ONIX.

Luminiscente

El mosaico vítreo luminiscente brilla en la oscuridad durante horas después de haber estado expuesto a la luz, tanto natural como artificial fluorescente, ultravioleta o halógena. Este proceso puede repetirse indefinidamente.

El tiempo de emisión dependerá del tipo de luz con el que se haya efectuado la carga, así como del tiempo que haya estado cargando el mosaico luminiscente. La intensidad de la emisión es gradual, disminuyendo poco a poco con el paso de las horas.

Este mosaico es resistente a condiciones meteorológicas y, por tanto, apto para cualquier uso: piscinas, interiores y exteriores, paredes, suelos residenciales... Se puede utilizar como base o se puede mezclar con otro producto de ONIX.

Luminescence

La mosaïque de verre phosphorescente brille dans l'obscurité pendant des heures après avoir été exposée à la lumière tant naturelle qu'artificielle (fluorescents, ultraviolets, halogènes). Cette opération peut être répétée de manière indéfinie.

Le temps d'émission dépendra du type de lumière utilisée mais aussi du temps durant lequel la mosaïque phosphorescente aura été exposée. Le temps d'émission est gradué et diminuera peu à peu au fil des heures.

Cette mosaïque est résistante aux conditions météorologiques. Elle peut donc être utilisée dans n'importe quelle application: piscines, intérieurs et extérieurs, murs, sols résidentiels... Elle peut être posée seule ou en mélange avec d'autres références d'ONIX.

Mosaic Creator

Tesserae from each range hold different colours and technical specs. You can mix them and create as many combinations as you wish.

Natureglass

The mosaic of great technical perfection. Tesserae with a defined cut and a neat matte finish. The base is coloured in a great variety of hues and shades: white, black, grey, silver, gold...

Stoneglass

ONIX's highest technical spec range that stands out for its high wear resistance. Classed Mohs 9 (almost as hard as diamond mosaic) it's especially suitable for commercial flooring.

Ecostones

Elegant marble and stone textures cover each mosaic. Endless possibilities of combination for decorating environments. A grain that recalls the marble fineness and recreates stone, taking us to its natural origin.

Cada tipología de tesela tiene unos acabados, colores y especificacionestécnicas. Puedes mezclarlas entre sí y crear tantas combinaciones como sean necesarias.

Natureglass

El mosaico de mayor perfección técnica. Teselas todo masa con corte totalmente definido y un pulcro acabado mate. La base está coloreada en una gran variedad de tonos y matices: blanco, negro, grises, plata, dorado...

Stoneglass

La serie más técnica de ONIX. Una proeza de producción que destaca por su alta resistencia al desgaste. Catalogado como Mohs 9, es casi tan duro como el diamante, este mosaico está especialmente indicado para pavimentos comerciales.

Ecostones

Elegantes texturas con mármoles y piedras recubren cada mosaico. Posibilidades infinitas de combinación para ambientes de decoración. Un veteadado que recuerda la finura del mármol y recrea con realismo las piedras trasladándonos a su origen natural.

Chaque tesselle a des finitions, des couleurs et des qualités techniques différentes. Vous pouvez les mélanger et créer autant de combinaisons que vous le souhaitez.

Natureglas

Elegant marble and stone textures cover each mosaic. Endless possibilities of combination for decorating environments. A grain that recalls the marble fineness and recreates stone, taking us to its natural origin.

Stoneglass

Elegantes texturas con mármoles y piedras recubren cada mosaico. Posibilidades infinitas de combinación para ambientes de decoración. Un veteadado que recuerda la finura del mármol y recrea con realismo las piedras trasladándonos a su origen natural.

Ecostones

Des textures élégantes en marbre et en pierre couvrent chaque mosaïque. Les possibilités de combinaison sont infinies pour les environnements de décoration. Un grain qui évoque la finesse du marbre et recrée d'une façon réelle les pierres en nous amenant à son origine naturelle.

Découvrez toute l'information en rapport avec ses caractéristiques techniques et mode de pose à Mosaic laying advice shading blends.

Shading Blends

At ONIX, we capture your images and designs on glass mosaic by converting each pixel into a tile and creating highly attractive customized compositions that will make your space original and unique.

- Tell us all about the concept or motif you wish to reproduce; you can send us an image as reference or send us your own design, with as much definition as possible.
- Select the materials that will make up the space to be decorated. We make it possible for you to choose between multiple colors, finishes, and mosaic textures: smooth, metallic, luminescent, etc.
- Tell us the dimensions of the space to be decorated; please keep in mind that the larger the space, the greater the detail you can achieve.
- And that's it. Our design team will then have all the information they need to be able to send you a simulation of your project.

En ONIX plasmamos tus imágenes o diseños en mosaico vítreo convirtiendo cada píxel en una tesela, creando composiciones personalizadas de gran atractivo que harán de tu espacio un lugar único.

- Explicanos bien la idea o motivo a reproducir; puedes hacernos llegar una imagen de referencia o enviarnos tu propio diseño, con la máxima definición posible.
- Elige los materiales que van a componer el decorado. Te ofrecemos la posibilidad de escoger entre múltiples colores, acabados y texturas de mosaico: lisos, metalizados, luminiscentes, etc.
- Indicanos las dimensiones del decorado; para conseguir mayor detalle, las dimensiones del decorado también han de ser de mayor tamaño.
- Con esto, el equipo de diseño tendrá la información necesaria para poder hacerte llegar una simulación de tu proyecto.

Chez ONIX, nous reproduisons vos images ou vos conceptions en mosaïque de verre, transformant chaque pixel en tesselles, créant ainsi des compositions personnalisées très attrayantes qui rendront votre espace unique.

- Expliquez-nous l'idée ou le motif à reproduire; vous pouvez nous envoyer une image de référence ou votre propre conception, avec la plus haute définition possible.
- Choisissez les matériaux qui composeront le décor. Nous vous offrons la possibilité de choisir entre de multiples couleurs, finitions et textures de mosaïque : lisse, métallique, luminescente, etc.
- Veuillez nous indiquer les dimensions de l'ensemble. Pour obtenir plus de détails, les dimensions de l'ensemble doivent également être plus grandes.
- L'équipe de conception disposera ainsi des informations nécessaires pour pouvoir vous envoyer une simulation de votre projet.

Pixel Art

With the ONIX digital printing system, we can reproduce any image or vector file onto glass mosaic. Achieve spectacular results thanks to the high resolution and precise use of color this technique employs.

- Select the base material.
- Tell us the dimensions of the decoration.
- Send us the image you wish to reproduce. For best results, we recommend that the file be in JPEG or TIFF format with a resolution of 300 dpi for digital images, or in EPS or Ai for vector files.
- If the image does not have the appropriate resolution or measurements, ONIX will propose a similar image as an alternative.
- This is all the information our design team needs to be able to send you a simulation of your project.

Mediante el sistema de impresión digital de ONIX logramos reproducir cualquier imagen o archivo vectorial sobre mosaico vítreo. Consigue un resultado espectacular gracias a la gran resolución y croma-tismo que esta técnica ofrece.

- Elige el material base.
- Indicanos las dimensiones del decorado.
- Envíanos la imagen que deseas reproducir. Para conseguir mejores resultados, recomendamos que el archivo esté en formato JPEG o TIFF con una resolución de 300 ppp si se trata de una imagen digital o en EPS o Ai si se trata de un archivo vectorial.
- Si la imagen no tiene la resolución o medidas adecuadas, ONIX propondrá una imagen alternativa similar.
- Con todo esto, el equipo de diseño tendrá la información necesaria para poder hacerte llegar una simulación de tu proyecto.

Grâce au système d’impression numé-rique ONIX, nous pouvons reproduire n’importe quelle image ou fichier vectoriel sur de la mosaïque de verre. Il permet d’obtenir un résultat specta-culaire grâce à la grande résolution et au chromatisme de cette technique.

- Choisissez le matériau de base.
- Indiquez-nous les dimensions de l’ensemble.
- Envoyez-nous l’image que vous souhaitez reproduire. Pour un résultat optimal, nous recommandons que le fichier soit au for-mat JPEG ou TIFF avec une résolution de 300 dpi s’il s’agit d’une image numérique, ou au format EPS ou Ai s’il s’agit d’un fi-chier vectoriel.
- Si l’image n’a pas la résolution ou les dimensions appropriées, ONIX proposera une image alternative similaire.
- L’équipe de conception disposera ainsi des informations nécessaires pour pouvoir vous envoyer une simulation de votre projet.

Packing List

Dots

Great Grip

The dot backing system allows up to 91% of surface free for the adhesive.
El soporte por puntos deja libre hasta el 91% de la superficie para adhesivo.
Le système de montage sur points laisse jusqu'à 91% de surface libre pour l'adhésion du ciment colle.

Fast Installation

The size of 12 x 18 tesserae and the ease of installation allows up to a 27% time saving during the installation.
El mayor tamaño de 12 x 18 teselas y la facilidad de colocación de las láminas permite un ahorro del 27% del tiempo durante la instalaci3n.
La dimension des plaques 12 x 18 permet un gain de temps de 27% durant la pose.

High Resistance

The dot backing is damp proof, so it can be stored outside and it will remain unaltered.
Este sistema por puntos es insensible a la humedad. Es posible almacenarlo en el exterior permaneciendo inalterable.
Ce syst3me ne craint pas l'humidit3. Le mat3riel peut donc 3tre stock3 3 l'ext3rieur sans que celui-ci ne subisse aucunes alt3rations.

Maximum Flexibility

Full adaptability to any type of surface: corners, curved, irregular finishes...
Total adaptabilidad a cualquier tipo de superficie: esquinas, curvadas, acabados irregulares...
Adaptabilit3 totale 3 tout type de surface: angles, finitions courbes, irr3guli3res...

Minimum Thickness

An even thickness which conceals the surface of the grouting.
Un grosor homog3neo que se oculta por completo con el rejunte.
Une 3paisseur homog3ne parfaitement cach3e avec le rejoint du produit.

Visual Control

Unlike paper support, when you visualize the mosaic in the installation it is possible to create drawings and shapes.
Al contrario del soporte papel, al visualizar el mosaico en la instalaci3n es posible crear dibujos y formas.
Contrairement au support papier, lorsque vous visualisez la mosa3que dans l'installation, il est possible de cr3er des dessins et des formes.

Mesh

Great Grip

Mesh mounting system leaves the 75% of the back free for the adhesive.
El sistema de soporte por malla deja libre el 75% de la superficie del mosaico para el adhesivo.
Le montage de la mosa3que sur filet laisse 75% de la surface libre pour le ciment colle.

Dots Polyurethane.

Penta Glass Mosaic

This Artisan-edge glass mosaic is made with recycled glass pieces and may include irregular edges, rustic appearances, minimal imperfections or slight variations in sizing and squareness. These characteristics are inherent to this product due to the manufacturing process. The slight size or shape variations may affect the grout joint appearance, further enhancing the natural aspect of this product. Use constitutes acceptance.

El aspecto artesanal del mosaico vitreo en formato PENTA es una cualidad inherente en estos productos por el proceso de fabricaci3n. Las teselas podrian incluir ciertas irregularidades y m3nimas imperfecciones en el tama3o aportando cierta apariencia r3stica m3s alejada de la perfecci3n cuadr3culada. Adem3s la reducci3n de tama3o y variaciones de tono pueden afectar al aspecto del rejunte y modificar la apariencia natural de estos mosaicos. El uso constituye aceptaci3n de esta advertencia.

L'aspect artisanal de la mosa3que de verre au format PENTA est une caract3ristique intrins3que due 3 son processus de fabrication. Les tesselles peuvent pr3senter certaines irr3gularit3s ainsi que de l3g3res imperfections dimensionnelles, leur conf3rant un aspect rustique 3loign3 de la perfection g3om3trique. De plus, la r3duction de taille et les variations de teinte peuvent influencer sur l'apparence du joint et modifier l'aspect naturel de ces mosa3ques. Toute utilisation du produit implique l'acceptation de ces sp3cificit3s.

Onix Glass Mosaic

All ONIX series are produced from 100% recycled glass. The characteristics of glass mosaic may include irregular edges and small variations in size. These characteristics are inherent to the product and standard production. Small variations in size and shape can affect the appearance of the joint and enhance the natural look of these products.

Todas las series de ONIX se han producido a partir de vidrio reciclado al 100%. Las caracter3sticas del mosaico vitreo puede incluir bordes irregulares y peque3as variaciones de tama3o. Estas caracter3sticas son inherentes al producto y a la producci3n est3ndar. Las peque3as variaciones de tama3o y forma pueden afectar a la apariencia de la junta y realzar el aspecto natural de estos productos.

Toutes les collections ONIX sont fabriqu3es 3 partir de verre 100 % recycl3. Les caract3ristiques de la mosa3que de verre peuvent inclure des bords irr3guli3rs et de l3g3res variations de taille. Ces particularit3s sont inh3rentes au produit et au processus de fabrication standard. Les petites variations de taille et de forme peuvent modifier l'aspect des joints et sublimer l'apparence naturelle de ces produits.

Important Advice

Gold 24k

Caution Valuable Metals

Pieces decorate with a special application (handle with care). Improper manipulation (scratching) and the use of abrasive detergents may cause damage on the pieces. When fixing, pay special care when cleaning the white cement used for grouting. It is recommended to use small grain grouting material avoid scratching the glazed surface.

Clean after fixed with a very wet rag or with a sponge while the grout is still wet. Never use neither abrasive or corrosive elements, nor aggressive cleaning agents too basic or excessively acid.Should pieces present defects, do not lay them, contact the supplier straight away. No claim will be accepted once the product is laid out.

The gold and platinum metals that are used in our decorations, have been widely checked in the domestic use, bearing in mind the described recommendations for their cleaning. If it is preferred to use them in industrial areas, then, every single case ought to be evaluated to verify its viability.

In spa and public swimming pool areas where there is a continuous high humidity concentration on the walls, due to water evaporation, salts and/or chlorine (bleach), **THEIR USE IS NOT RECOMMENDED.**

Precaución Metales Preciosos

Los materiales contenidos están decorados con una aplicación especial (tratar con cuidado). La manipulación indebida (rayados y rozaduras) y la utilización indebida de detergentes abrasivos pueden causar daños a las piezas. A la hora de colocar, tener especial cuidado al limpiar el cemento blanco que se utiliza para rejuntar. Se recomienda utilizar rejuntas de granulometría fina que no rayen los esmaltes.

Limpiar con una bayeta húmeda o una esponja con abundante agua cuando el rejunte aun este húmedo. No utilizar nunca elementos abrasivos ni corrosivos, ni agentes agresivos de limpieza demasiado básicos o excesivamente ácidos. Si alguna pieza presenta algun defecto, no colocar y comunicar a su proveedor. No se aceptará ninguna reclamación una vez colocado el producto.

El oro y el platino que se utilizan en nuestras decoraciones estan ampliamente contrastados en uso domestico con las reclamaciones descritas sobre su limpieza. Si se desea una utilización en ambientes industriales, se debera evaluar en cada caso su conveniencia.

En Spa o piscinas públicas en donde sé de una continua concentración de humedad en las paredes, por evaporación de agua, sales y/o cloro (lejía), **ES DESACONSEJABLE SU UTILIZACIÓN.**

Attention Métaux Précieux

Ces matériels sont décorés avec une application spéciale (manipuler avec précaution). La manipulation indue (rayures et éraflures) el l'utilisation de détergent abrasif peuvent occasionner des dommages sur les pièces. Lors de la pose, il faut faire spécialement attention quand vous nettoyez l'enduit ciment blanc utilisé pour jointer. Il est conseillé d'employer de l'enduit-joint, de petite granulation afin d'éviter le rayage de la surface émaillée.

Nettoyer avec, un chiffon humide ou une éponge avec de l'eau quand le ciment est encore humide. N'employez jamais ni d'éléments abrasifs ou corrosifs, ni des produits d'entretien trop basiquesou excessivement acides. Si l'une des pièces a un défaut, ne pas la poser et le communiquer à votre fournisseur. Aucune réclamation ne sera acceptée une fois le produit posé.

Les métaux d'or et platine qui sont employés dans nos décorations, ont été largement contrôlés dans l'usage domestique, tout en tenant compte les recommandations pour leur nettoyage. Lors d'un usage en endroits industriels, veuillez considérer leur convenance au cas par cas.

Dans des balnéaires ou des piscines publiques ou l'on produit une concentration continue d'humidité dans les murs a cause de l'évaporation d'eau, sels et/ou chlore (lessive), **LEUR EMPLOI EST TOUT À FAIT DÉCONSEILLÉ.**

Matte & Seda Antislip

Caution Coloured Grouting

Grout should not be considered exclusively as a component for fixing mosaics, but as an element that will affect the overall aesthetic of the project.

The color of the grout will impact the final look pursued (higher or lower contrast).

Employing a similar grout color to that of the mosaic will provide a sense of continuity, while a contrast-ing grout color will accentuate the geometry of the tesserae.

ONIX advises against the use of dark colored grouts with light colored Matte non-slip mosaics, as the texture/finish may be difficult to clean during & after installation.

It is recommended to carry out a cleaning test prior to the laying of the mosaic as claims will not be accepted once installed.

Precaución Color de Junta

La junta no debería considerarse exclusivamente como un elemento para la fijación de piezas, sino como un aspecto a valorar en la apariencia final del proyecto.

El color de la junta afectará al resultado de la estética perseguida (mayor o menor contraste).

La utilización de una junta de color similar al del mosaico logrará proporcionar una sensación de continuidad, mientras que un color contrastado acentuará la geometría de las piezas.

ONIX desaconseja el uso de juntas oscuras en materiales con tonalidades de color claro y acabado antideslizante Matte, ya que la textura de este tipo de productos puede dificultar su limpieza durante y después de la instalación.

Se recomienda efectuar una prueba de limpieza previa a la instalación final del producto. No se aceptará ninguna reclamación una vez colocado el producto.

Attention Couleur de Joint

Le joint ne doit pas exclusivement être considéré comme un élément de fixation, en effet c'est un aspect visuel important à la fin du projet.

La Couleur du joint va affecter le résultat esthétique final recherché. (avec un contraste plus ou moins important).

L'utilisation d'un joint de couleur similaire à la mosaïque donner une sensation de continuité, au contraire un joint d'une couleur différente va contraster avec le produit et accentuer la géométrie des pièces.

ONIX déconseille l'utilisation de joints foncés sur des matériaux claires surtout en finition antidérapante et Matte, en effet la texture de ces produits peut rendre difficile le nettoyage pendant et après la mise en oeuvre.

Nous conseillons la réalisation d'un essai de nettoyage avant l'installation du produit. Aucune réclamation post installation ne pourr être acceptée.

Tips for Metals & Gold 24k

Tips for Coloured Grouting

ONIX glass Mosaics can be installed on interior and exterior areas and in wet and dry locations. Please refer to the Suitability area product guide and composition and check if the mosaic is suitable for the required application.

Glass tiles should not be exposed to high abrasion and high impact and or installed over flexible surfaces. Breakages or cracks are very noticeable in glass tiles so the use of a crack suppression membrane is recommended when mosaics are installed over a mortar bed but note that this is not applicable if mosaics are used as an accent. Some substrates could continue to cure and shrink and a crack suppression membrane prevents shrinkage to affect the mosaic tiles. Install only over well-cured, stable substrates. Expansion joint are recommended when substrates change.

Grout should not be considered exclusively as a component for fixing mosaics, but as an element that will affect the overall aesthetic of the project.

The color of the grout will impact the final look pursued (higher or lower contrast).

Employing a similar grout color to that of the mosaic will provide a sense of continuity, while a contrasting grout color will accentuate the geometry of the tesserae.

Adhesives

Use of white thin set mortar adhesives is recommended. C2 as per EN 12004 norm or two component flexible acrylic or epoxy adhesives. Note that some glass mosaics may contain resins in the composition so when using a C2 adhesive make sure that it does not affect the resins and it is safe for glass mosaics containing resins. For pool and submerged installations check with adhesive manufacturers if additional steps or procedures are required.

Grouting

In order not to scratch the surface of the mosaics, non sanded grout is the recommended option. RG type and Epoxy grouts are the recommended options for installations. Float the grout into the joints to avoid scratching the surface of the mosaics. Special care and attention must be followed with the metallic and precious metals finishes to avoid scratches. Please refer to the Suitability area product guide composition and to the Tips for precious metals section and check if the mosaic selected contains these products.

ONIX advises against the use of dark colored grouts with light colored Matte non-slip mosaics, as the texture/finish may be difficult to clean during & after installation.

It is recommended to carry out a cleaning test prior to the laying of the mosaic as claims will not be accepted once installed.

Cutting and Drilling

Ceramic tiles cutting blades are not recommended for glass. Always use diamond blades designed for cutting glass on a wet saw. For drilling use of use a coring drill that is designed for glass.

Cleaning

The use of non-abrasive cleaning products is recommended.

Important note: All ONIX 100% recycled glass mosaics series are made of molten glass. Molten glass characteristics may include irregular edges and small variations in size. These characteristics are inherent to the product and to the standard production. The small size and shape variations can affect the grout joint appearance and enhance the natural aspect of these products.

El mosaico vítreo ONIX puede ser instalado en paredes interiores o exteriores, en zonas secas o húmedas. Por favor consultar la Guía de productos y áreas de aplicación para comprobar si el producto es el adecuado para la aplicación.

El mosaico vítreo no debe ser expuesto a grandes abrasiones, grandes impactos o choques térmicos o instalarse sobre superficies flexibles. Las grietas en mosaicos son muy visibles por lo que se recomienda la utilización de membranas antigrietas cuando se instale sobre un lecho de mortero a no ser que se utilice como cenefa. Algunos sustratos pueden continuar secándose y contraerse a lo largo del tiempo y una membrana antigrietas prevendría que traslade al mosaico la contracción o el movimiento del sustrato. Instalar solo sobre sustratos bien secos y estables e instalar una junta de expansión cuando haya cambios de sustrato.

La junta no debería considerarse exclusivamente como un elemento para la fijación de piezas, sino como un aspecto a valorar en la apariencia final del proyecto.

El color de la junta afectará al resultado de la estética perseguida (mayor o menor contraste).

La utilización de una junta de color similar al del mosaico logrará proporcionar una sensación de continuidad, mientras que un color contrastado acentuará la geometría de las piezas.

Adhesivos

Usar un mortero blanco de capa fina C2 de normativa EN 12004 o un sistema bicomponente de flexible acrílico o epóxico formulado para la instalación de mosaico vítreo en paredes, tanto de interior como de exterior. Algunos mosaicos vítreos pueden contener resinas, por lo que cuando se utilice un C2 se necesita comprobar que este no afecte a las resinas. Para instalaciones en piscinas o superficies sumergidas comprobar con el fabricante de adhesivos si son requeridos algunos pasos o materiales adicionales.

Rejuntado

Utilizar junta sin arena con mosaico vítreo para evitar el rayado de la superficie. Juntas RG o Epóxicas son las recomendadas. Cuidadosamente rellenar las juntas y evitar el rallar la superficie del mosaico. Especial atención se debe tener con los materiales que contienen acabados metálicos y metales preciosos como oro. Por favor consultar la Guía de productos y áreas de aplicación y los Consejos para metales preciosos y comprobar si el mosaico elegido lo contiene y seguir las instrucciones para evitar rayados y otros problemas.

ONIX desaconseja el uso de juntas oscuras en materiales con tonalidades de color claro y acabado antideslizante Matte, ya que la textura de este tipo de productos puede dificultar su limpieza durante y después de la instalación.

Se recomienda efectuar una prueba de limpieza previa a la instalación final del producto. No se aceptará ninguna reclamación una vez colocado el producto.

Cortes y perforaciones

Los cortadores o perforadores diseñados para la cerámica no están indicados para el mosaico vítreo. Para cortar utilice un disco de diamante en mojado, el disco para cortar mosaico es un disco fino con diamantes más pequeños que un disco para cortar cerámica, Para perforar un agujero use una broca que esté diseñada para cristal.

Limpieza

Se recomienda el uso de productos de limpieza no abrasivos.

Nota especial: Las series de ONIX de 100% de vidrio reciclado están hechas con cristal molturado y fundido. Las características del cristal fundido incluyen algunos bordes irregulares y pequeñas variaciones en el tamaño. Estas características son inherentes al producto y a la producción estándar. Las variaciones en forma y aspecto tienen un pequeño impacto en la apariencia final del producto rejuntado e intensifican el aspecto natural de estas series.

La mosaïque de verre ONIX peut être posée en murs intérieurs et extérieurs, en zone sèches et humides. Veuillez consulter notre Guide de produits et zones d'applications pour vérifier si le produit est adéquat pour l'application voulue.

La mosaïque de verre ne doit pas être exposée à de grandes abrasions, de grands impacts ou d'importants chocs thermiques ou ne peut être posée sur des surfaces flexibles. Les fissures sont très visibles sur la mosaïque. Nous recommandons donc l'utilisation d'une membrane anti-fissures quand la mosaïque doit être posée sur un lit de mortier sauf quand elle est utilisée en frise. Certains substrats pourraient continuer à sécher et à se rétracter avec le temps et la membrane anti-fissures empêcherait que l'action de contraction et de mouvement affecte la mosaïque. Poser seulement sur des substrats secs et stables et faire un joint d'expansion quand il y a un changement de substrats.

Le joint ne doit pas exclusivement être considéré comme un élément de fixation, en effet c'est un aspect visuel important à la fin du projet.

La Couleur du joint va affecter le résultat esthétique final recherché. (avec un contraste plus ou moins important).

L'utilisation d'un joint de couleur similaire à la mosaïque donner une sensation de continuité, au contraire un joint d'une couleur différente va contraster avec le produit et accentuer la géométrie des pièces.

Adhésifs

Utiliser un mortier blanc de couche fine type C2 selon la norme EN 12004 ou un système bicomposant de flexibles acryliques ou epoxy de couleur blanche prévu pour la pose de mosaïques sur murs tant à l'intérieur qu'à l'extérieur. Certaines mosaïques de verre peuvent contenir des résines dans leur composition. Lors de l'utilisation d'un mortier C2, veuillez vous assurer que celui-ci n'affectera pas les résines et la mosaïque. Pour une pose en piscines ou submergée, veuillez vérifier auprès du fabricant d'adhésifs qu'aucune action ou matériels additionnels sont nécessaires.

Joints

Utiliser un joint sans grain pour éviter les rayures de la superficie. Les joints RG ou epoxy sont les joints recommandés. Remplir soigneusement les joints en évitant toutes rayures. Une extrême précaution est recommandée dans la manipulation de matériels aux finitions métalliques ou contenant des métaux précieux comme l'or. Veuillez consulter notre Guide de produits et zones d'applications et les conseils pour métaux précieux pour vérifier si la mosaïque choisie en contient et suivez les instructions pour éviter les rayures et autres problèmes.

ONIX déconseille l'utilisation de joints forcés sur des matériaux claires surtout en finition antidérapante et Matte, en effet la texture de ces produits peut rendre difficile le nettoyage pendant et après la mise en oeuvre.

Nous conseillons la réalisation d'un essai de nettoyage avant l'installation du produit. Aucune réclamation post installation ne pourr être acceptée.

Coupes et perforations

Les coupeuses et perforateurs pour céramiques ne sont pas indiqués pour la mosaïque de verre. Pour couper, utiliser un disque de diamant à eau, le disque pour couper la mosaïque étant un disque fin à diamants plus petit que celui utiliser dans la céramique. Pour percer un trou utiliser un foret spécial verre.

Nettoyage

L'utilisation de produits de nettoyage non abrasifs est recommandée.

NB: Les séries d'ONIX de 100% de verre recyclé sont fabriquées avec du verre broyé et fondu. Les caractéristiques de ce verre incluent donc des bords irréguliers et des petites variations dans la taille de la mosaïque. Ces caractéristiques sont inhérentes au produit et à la production standard. Les variations en forme et aspect ont un impact sur l'apparence final du produit rejointé et intensifient l'aspect naturel de ces séries.

Preparation of the base

The base on which the laying will be effected, must be perfectly smooth, uniform and white. A different colour damages the aesthetic look of the final result.

The glueing operation

White C2 glue, as per EN-12004, must be used. By using the smooth side of the trowel, the glue has to be spread out uniformly on the base (2 sq.m. approximately). By using the jagged side of the trowel (2 or 3 mm.), comb the glue.

The laying of mosaic tiles

Adhere the sheet to the surface by pressing with a rubber trowel. It is important to make sure that the distance between one sheet and another is the same as the one among the tesseras so that all the joints look alike. We suggest to join the sheets when it comes to laying.

Grouting

Joints must be clean, dry and free form dust. The remains of adhesive, after laying, must be removed while it is still fresh. Use grouting paste, RG type, as per EN 13888, spread it out with a rubber trowel.

Cleaning

Let it dry until the paste gets brightless, superficially, and then proceed to clean it with a sponge soaked in water. Once it gets dry, remove it with a dry cloth.

Preparación del soporte

El soporte sobre el cual se efectuará la colocación deberá de estar liso, uniforme y de color blanco. Un color diferente perjudica la estética del resultado final.

Operación de encolado

Usar cemento cola tipo C2 color blanco, según EN-12004. Usando el lado liso de la llana extender el adhesivo uniformemente sobre el soporte (aproximadamente 2 m²). Con el lado dentado de la llana (2 ó 3 mm.) peinar el cemento cola.

Colocación mosaico

Adherir las láminas a la superficie presionando con una llana de goma. Es importante asegurarse que la distancia entre hoja y hoja es igual a la que hay entre las teselas para que todas las juntas sean iguales entre sí. Aconsejamos trabar las hojas a la hora de su colocación.

Rejuntado

Las juntas deben estar limpias, secas y exentas de polvo. El adhesivo sobrante de la colocación se debe eliminar cuando esté todavía fresco. Utilizar pasta de rejuntar tipo RG según EN 13888, extendiéndolo con una llana de goma.

Limpieza

Dejar secar hasta que la masa pierda el brillo superficial y proceder a su limpieza con una esponja humedecida en agua. Una vez seco eliminar con un trapo seco.

Préparation de la surface

La surface sur laquelle on va effectuer la pose, doit être parfaitement lisse, uniforme et blanche. Une couleur différente nuit l'aspect esthétique du résultat final.

Opération de collage

Employer une colle de type C2 de couleur blanche, selon la norme EN-12004. Tout en employant le côté lisse de la truelle, la colle doit être répartie uniformément sur la surface (2 m² approximativement). Tout en employant le côté denté de la truelle (2 ou 3 mm.), peigner la colle.

La pose de la mosaïque

Adhérer la feuille à la surface tout en pressant avec une truelle en caoutchouc. Il est important de s'assurer que la distance entre chaque plaque est identique à celle entre les tesselles, de façon à ce que tous les joints soient égaux entre eux. Nous conseillons une pose des plaques en quinconce.

Remplissage des joints

Les joints doivent être propres, secs et sans poussière. Le surplus de colle suite à la pose doit être éliminé lorsqu'il est encore frais. Utiliser un joint de type RG selon la norme EN13888, tout en répartissant avec une truelle en caoutchouc.

Nettoyage

Laisser sécher jusqu'à ce que le joint perde son éclat superficiel et procéder à son nettoyage avec une éponge humide. Une fois que tout est sec, nettoyer avec un chiffon sec.

Mosaic Laying Advice

Application Shading Blends

Our gradients allow for a smooth transition from one tone to the next, from darkest to lightest.

They are sold in modules of eight sheets, or levels, from levels L1 to L8.

Each level consists of a specific percentage of tiles, which allows for the transition between different levels to take place gradually, harmoniously and seamlessly, so that the eye is unaware of where one section ends and the next begins.

Individual levels are available for purchase and can be used to complement flooring, overlays, ceilings or any other surface.

Aplicación Shading Blends

Los degradados proporcionan una suave transición entre tonalidades, desde la más oscura a la más clara.

Se comercializan en módulos de ocho láminas o niveles, que van desde el nivel L1 al L8.

Cada nivel está formado por un porcentaje de teselas de-terminado, de forma que la transición entre los diferentes niveles se produce de manera gradual y armónica, sin apreciarse cortes entre las diferentes secciones.

Es posible adquirir niveles independientes para comple-mentar el pavimento, revestimiento, techo u otra superficie.

Application Shading Blends

Les dégradés permettent une transition en douceur entre les nuances, de la plus sombre à la plus claire.

Ils sont commercialisés en modules de huit feuilles ou niveaux, allant du niveau L1 au niveau L8.

Chaque niveau est composé d'un certain pour-centage de tesselles, de sorte que la transition entre les dif-férents niveaux est graduelle et harmonieuse, sans rupture entre les différentes sections.

Il est possible d'acheter des niveaux indépendants pour compléter le sol, le revêtement, le plafond ou toute autre surface.

Mesh

1 Module | 12X12.

2488 x 311 mm | 0,77m² - 8.28 sqft

L1 L2 L3 L4 L5 L6 L7 L8

Dots

1 Module | 12X18.

2488 x 467 mm | 1,16 m² - 12.5 sqft

L1 L2 L3 L4 L5 L6 L7 L8

Mosaic Laying Advice Shading Blends

Use in swimming Pool

Use in interior

At ONIX we strive to contribute to environmental sustainability hence we manufacture ecological and eco-friendly mosaics. In addition, we promote circular economy through the reuse of production surplus.

Production

- Fossil fuels are not used during our production process therefore greenhouse gases or polluting particles are not emi-ted into the atmosphere.
- Residual oils from presses and enamel wastes are collect-ed for purification by a certified company.
- Our electric kilns are equipped with frequency converters in order to maximize energy efficiency by allowing the adjustment & control of working temperatures in a stable manner.
- Haulage of ground-glass within our facilities is carried out under sealed conditions. Pneumatic transport avoids the propagation of glass particles & subsequent environ-mental pollution.
- No water is used during our entire manufacturing process, therefore avoiding liquid residues.

Logistics

- Big-Bags and pallets are returned to our suppliers so they can be re-utilized. In addition, all the Euro pallets are recycled in order to favour circular economy.
- Brown cardboard is used for packaging as it is far less polluting than white cardboard. Boxes are designed to minimize the information carried by applying black ink only in order to optimize screen printing.

GO GREEN

Sustainability
Informaton

En ONIX nos preocupamos por el medio ambiente y la sostenibilidad, por eso fabri-camos un producto ecológico y respetuoso con el entorno. Además de promover la economía circular, mediante la reutilización de mermas de producción, para la fabricación de vidrios menos exigentes re-specto a la pureza de esta materia prima.

Producción

- En ONIX no utilizamos combustibles fósiles en nuestros procesos de producción, no emitimos ni gases de efecto invernadero, ni partículas contaminantes a la atmósfera.
- Los aceites residuales de prensas y restos de esmaltes se recogen para su depuración mediante una empresa certificada para este propósito.
- Nuestros hornos son eléctricos y controlados por variadores de frecuencia que aseguran una alta eficiencia, lo cual permite ajustar las tempera-turas de trabajo de forma estable y consumir solamente la energía necesaria.
- El transporte de polvo de vidrio que se realiza en nues-tras instalaciones se efectúa bajo unas condiciones de estanqueidad proporcionada por transportes neumáti-cos, evitando así su propagación y contaminación del entorno.
- En nuestros procesos de limpieza no se em-plea agua, por lo que no generamos aguas residuales en el proceso y al mismo tiempo, minimizamos su consumo.

Logística

- En ONIX se reutilizan todos los Big-Bag y palets emplea-dos en el proceso para enviarlos de nuevo a proveedores y que estos los rellenen con nueva materia prima. Además, todos los Europalets que usamos son reciclados, favoreciendo una vez más la economía circular.
- Para el encajado de nuestro producto se emplea cartón marrón, cuyo proceso productivo es mucho menos contaminante que los cartones blanqueados. Las cajas se diseñan minimizando al máximo la información que contienen y utilizando únicamente tinta negra, a fin de reducir la cantidad de serigrafía empleada.

Chez ONIX, nous nous soucions de l'environnement et de la durabilité, c'est pourquoi nous fabriquons un produit écologique et respectueux de l'envi-ronnement, en plus de promouvoir l'économie circulaire par la réutilisation des surplus de production, pour produire du verre moins exigeant en termes de pureté de cette matière première.

Production

- Nous n'utilisons pas de combustibles fossiles dans nos productions, et nous n'émettons pas non plus de gaz à effet de serre ou de particules polluantes dans l'atmos-phère.
- Les huiles résiduelles des presses et les déchets de vernis sont collectés pour être purifiés par une entreprise spé-cialement certifiée.
- Nos fours sont électriques et contrôlés par des variateurs de fréquence pour assurer un rendement élevé, permet-tant d'ajuster les températures de travail de manière stable et de ne consommer que l'énergie nécessaire.
- Le transport de la poudre de verre effectué dans nos in-stallations se fait dans des conditions d'étanchéité grâce au transport pneumatique, ce qui permet d'éviter sa prop-agation et la pollution de l'environnement.
- Aucune eau n'est utilisée dans nos processus de nettoyy-age, ce qui signifie que nous ne générons pas d'eaux usées et, en même temps, nous minimisons leur consom-mation.

Logistique

- Tous les Big-Bags et les palettes utilisées dans le pro-cessus sont réutilisés pour être renvoyés aux fournisseurs qui les remplissent avec une nouvelle matière première. En outre, toutes les palettes Euro que nous utilisons sont recyclées, ce qui favorise une fois de plus l'économie circulaire.
- Le carton brun est utilisé pour l'emballage de nos pro-duits, et son processus de production est beaucoup moins polluant que celui du carton blanc. Les boîtes sont conçues de manière à minimiser les informations qu'elles contiennent tout en n'utilisant que de l'encre noire, afin de réduire la quantité de sérigraphie utilisée.
